CHIPS.

There was a jolly dance at St. Mark's Schoolhouse last night.

The Rice Surprise Party at the Salt Lake Theatre to-night, with Kate Castleton and John Mackay (not the Bonanza King) in "Pop."

The Congregational society at Independence Hall last night was a brilliant and thoroughly successful affair. Music, and good cheer were happily combined, and all present were well entertained.

The police were after the country people and other wagon owners yesterday, arresting six for camping in the streets or leaving their teams unhitched. These fines have thus far only been \$1 each, but they are to be increased; therefore let all the people take warning.

Indian Troubles.

St. Paul, 14.—A Fargo special states that George Ohmer of Dayton, who went into Turtle mountains a few weeks ago to seek his brother, Michael Ohmer, whose trouble with the Indians had been reported, returned this evening, states that his brother is safe now, but trouble is anticipated as the Indians have been reinforced by a large band across the boundary under Chief Little Shell. The Indians refuse to allow the settlers on that portion of their reservation which has just been thrown open to settlers by the Interior department. The Indians have not yet killed any one, but they destroy all machinery and kill settler's cattle. They are increasing in boldness every day and trouble is feared as the settlers are too few to protect themselves.

The Flood Relief.

Cincinnati, 15.—The relief committee appointed by the Chamber of commerce to receive and distribute money and supplies for the people made destitute by the floods, are about to close their labors. They have received \$184,000, all of which has been distributed except \$8,000. This will soon be used in helping the poor to restore their dwellings. A large part of the money has been used outside Cincinnati.

Political.

Caldwell, O., 14.—Sherman delegates to the State Republican convention.

London, O., 14.—Delegates to the Republican State convention were uninstructed, but are solid for Blaine.

Williamsport, Pa., 15.—Republicans of the Sixteenth Congressional district elected Blaine delegates to the national convention.

The Irish.

St. John, N. F., 15.—The assault on Protestants at Carbonear on Sunday night culminated last night in a serious affray in which shots were exchanged between the belligerents, but up to the present time none are reported mortally wounded. All last night an Orange body was under arms parading the streets of Carbonear.

The Langtry.

Chicago, 14.—Mrs. Langtry tonight opened a two-weeks' engagement here. While in the city she remains in her private car, in preference to going to a hotel.

It is one of the peculiarities of the American people to devote all their time to business without regard to health. In this rush for money and fame, many lives are ruined, which, with proper attention and a timely use of a proper corrective could be saved. For this purpose there is nothing equal to the "Prickly Ash Bitters." It relieves the system of all impurities, purifies the blood, and, by assisting nature, restores original health and vigor.

A. M. Darke, St. Louis, Mo., says: "I have been greatly benefited by Brown's Iron Bitters and can recommend it."

THE FATHERS IN COUNCIL.

The Usual Routine, and Some Few Novelties.

The minutes of the last meeting were read and adopted, and the Council proceeded to transact the following business:

A petition was submitted asking leave to use sidewalk for building materials at the Commerce buildings, from Henry W. Lawrence. Granted.

Petition of landowners at Bluff dam, who have had their property damaged by the Salt Lake and Jordan Canal, asking repair to prevent future damage. Referred to Water master.

Petition to have a ditch cleaned out on First East street. Referred to committee on streets and alleys.

Petition to use sidewalk on Second East street for building materials for sixty days. Granted.

Petition of a householder on Sixth East street, asking relief for damages to his house and premises by the Jordan Canal. Referred to committee on canal.

Petition of owners of billiard and ten-pin alleys, asking the consideration of the Council before they enact a heavy tax on their business. Laid on the table to be called up when the ordinance on the subject is under consideration.

Petition for license of auctioneer by Louis Regan, granted.

Two requests for renewal of liquor licenses were granted.

Reports of city officers: Committee to examine the obstructions at the head of the D. & R. G. railroad. The railroad company agrees to clear out all obstructions where their track has caused them. Report was adopted.

Petition of William Wood, for a lot found valid. He is believed by the city attorney to be the rightful owner of the lot. Laid on the table till called for.

Report of expenses of watermaster for the past quarter, total, \$1,838.40. After some discussion, in which Councilor Stringfellow urged that these affairs be decided by the proper committee, the report was referred to the committee on irrigation.

The committee on streets and alleys recommended that \$60 be granted to the men who repaired the bridge over Emigration Creek. Adopted.

The committee to examine water mains, in answer to a petition from John Sears et al., recommended it be granted. Received and adopted. The committee appointed to examine plans for the extension of water mains, states that the present water system has cost over \$283,000 and only benefits 30 per cent of the population. Recommend a special tax to make up this sum which has been paid out of the general fund. Laid on the table till called for.

Third reading was then given to Council file No. 1. An ordinance to license billiard tables and ten pin alleys, which puts a tax of \$40 per annum on each and every billiard table and ten pin alley kept in the city. The price was reduced from \$50 to \$40 after a desultory discussion. The petition of the billiard owners was re-read and laid on the table. The ordinance was passed and referred to the committee on enrollments.

Section 1.—Be it ordained by the City Council of Salt Lake City: That no person shall keep for use in any public place in said city any billiard or pool table or tables, or any pin or ball alley or nine or ten pin alley or alleys, or the runway or runways of either thereof, in or on which games are played, without first obtaining a license and paying a tax therefor, as hereinafter provided.

Sec. 2.—Licenses contemplated by the preceding section may be issued by the City Recorder to any person presenting a written application therefor, stating in such application the name of the applicant, the number and kind of tables, pin or ball alleys, or nine or ten pin alleys, and the runways thereof, to be licensed, and the place of keeping the same. But no such license shall be issued until payment has been first made therefor into the city treasury at the rate of forty dollars for each and every such table, or at the rate of forty dollars per annum for each and every pin or ball alley or nine or ten pin alley, and the runway thereof, specified in said application.

Sec. 3.—Every person who keeps for use in any public place in said city any kind of table or tables on which gambling for money, or the representation thereof, is allowed, or who keeps for use in any public place in said city any billiard or pool tables, or any pin or ball alley, or nine or ten pin alley or alleys, or the runway or runways of either thereof, in or on which games are played, without first obtaining a license therefor, as hereinbefore provided; or who permits any such billiard or pool table or tables or any such nine or ten pin alley or alleys, or the runway or runways thereof, to be used on the first day of the week, commonly called Sunday, shall, for each and every offense, upon conviction thereof, be punished by a fine not exceeding ninety-nine dollars, or by imprisonment in the city jail not exceeding ninety days, or by both such fine and imprisonment, at the discretion of the court.

Sec. 4.—All ordinances and parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

File 2.—An ordinance to prohibit the employment of females in saloons, was then considered and passed. Referred to the committee on enrollment.

Be it ordained by the City Council of Salt Lake City: That every person who employs any female to serve in the selling, giving away or other disposition or delivery of spirituous, vinous or malt liquors, in any saloon, or place in which they are sold, or delivered, or otherwise disposed of, shall for each

and every such offense, upon conviction thereof, be punished by fine not exceeding ninety-nine dollars, or by imprisonment in the city jail not exceeding ninety days, or by both such fine and imprisonment at the discretion of the court.

And every female so employed and serving, shall, for each and every such offense, upon conviction thereof, be punished by a fine not exceeding \$99, or by imprisonment in the city jail not exceeding ninety days, or by both such fine and imprisonment, at the discretion of the court.

Be it ordained by the City Council of Salt Lake City: That the mayor of said city shall by and with the advice and consent of the City Council appoint the regular police of said city to the number which may from time to time be prescribed by the City Council, and shall remove the same at pleasure. He shall also appoint special police when in his judgment the public good may require such special action, but no such special police shall be appointed for a longer period than ten days without the consent of the City Council.

Then follows the repealing clause. Councilor Pettit's motion submitted a month ago to dispense with the services of Sherks & Rawlins was taken up. A vote was taken dispensing with the services of the said firm from April 30th.

Bill for coal, \$75; for electric light, \$60.

Committee on quarantine instructed to draft an ordinance on quarantine. It was said that there are some cases of diphtheria.

Adjourned.

EFFECT OF THE TELEPHONE ON HEARING AND ATTENTION.

It has been assumed by some that the effect of constant use of the telephone is injurious to the ear. The Springfield Republican finds just the opposite to be the case with operators and others there. One of the young girls in the central office there says her hearing is constantly improving. When she began this work she blundered sadly; now the ear is drilled to catch the faintest sound, and the sense of hearing is remarkably acute. It must be noticed, however, that the regularity of this schooling of the ear is largely responsible for the good result. If an operator were to take a switch-board only one day in the week and do all the work required on that day, the practice would doubtless be detrimental, because it would be exhaustive to both the muscles and nervous make-up of the ear. The systematic use of the telephone seems to develop the hearing above its normal acuteness, but does not make it technically abnormal. The benefit from using the telephone is evident to both subscribers and central office operators, a process which is reckoned as the third or intellectual method of developing the sense of hearing. A good share of the difficulty which people find in working a telephone comes not from any defect in the machine, nor from deficient hearing, but from the inability to fix the attention on what is heard. This trouble readily disappears by practice in listening closely to what is said over the wire. Indeed the attention may be trained to an abnormal development, as in the case of the head operator at the central office, who has been in the telephone business for four years; she has so accustomed herself to fix her attention on the machine before her and to abstract her attention from her surroundings, that when she is in her home she often fails to hear when she is addressed by members of the family.

The economic aspect is a strong point in favor of the use of Dr. Price's Special Flavoring Extracts, Vanilla, Orange, Rose, Almond, Lemon, etc. First, they are three times the strength of ordinary extracts; second, the bottles hold nearly twice as much as those ordinarily sold for the same size; third, they are made from the true fruits.

Mrs. Bredemeyer's Funeral.

The funeral of this lamented lady took place yesterday morning at the Catholic Church, and was conducted with all the impressive solemnities of the ritual of that church. The coffin was decked with flowers, and a requiem mass was held before the procession left the church. A large company of friends and sympathetic acquaintances were present and followed the remains to their final resting place in the Catholic cemetery. Requiescat in pace.

Thanks.

On Monday morning Mrs. Hisey lost her pocketbook, and as it contained a considerable sum of money, she little expected to find it. Fortunately the treasure was picked up by Mr. E. H. Withey, of Park City, who immediately went about it to find the owner, and soon succeeded. The joy of the lady may well be imagined. She desires thus publicly to express her thanks to Mr. Withey.

Fireman's Mutual Aid Association.

CAUSES OF DESERTION FROM THE ARMY.

It is understood that the reports of the military department commanders will not show any improvement of the discipline and morale of the army, so far as the practice of desertion is concerned. Several officers of high rank, who have recently visited military posts in the Territories, say that at many of the smaller posts so many of the enlisted men are detailed for working parties, etc., that for months there has been no company drill or dress parade, and that, in fact, the soldier is turned into a mechanic or day laborer.

The soldiers who are thus detailed and who get "extra duty pay"—35 cents a day—do not complain, but their comrades who do the same or equally hard work without the extra pay do complain, and many of them become disgusted with the drudgery imposed upon them and desert. There is reason to believe that the soldiers have or think they have, another excuse for desertion. In February last the Surgeon-General issued a circular to the medical officers of the army, giving them very minute instructions for making postmortem investigations, and enjoining upon them the duty of making a full and careful report in every case. The blank form signified that deceased soldiers were to be subjects of such investigations.

This circular, it is asserted, did not pass through army headquarters, but was sent direct to officers of the medical staff. The interpretation given to it by some of the surgeons has prompted them to acts which have caused no little indignation and some loud complaints among the soldiers. Several months ago a soldier was accidentally shot in the head and killed at a military post on the frontier. The cause of death was disclosed by a superficial examination, but the ambitious and science loving surgeon carried out his instructions faithfully and completely dissected the body. The remains of another soldier, who was killed by a stroke of lightning, were about to be subjected to the same process, when the post commander interposed and prevented the autopsy. It is said that the bodies of a number of deceased soldiers have been subjected to the dissecting knife, in accordance with the instructions contained in the circular mentioned.

Fire Record.

Newark, N. J., 14.—The works of the Celluloid Brush company burned tonight. Loss, \$200,000; insured. Several employees were badly injured.

JUDAH'S FATHER.

The father of Judah P. Benjamin, Confederate Secretary of State, and now one of the foremost lawyers at the English bar, was a dark-skinned Spanish Jew, who kept a little fruit store in Charleston, S. C., Benjamin began life in this store, but never took to it kindly. He was educated by the Hebrew Orphan Society, and graduated from the College. He was not exactly an orphan, his mother having cut loose from his father and opened a general store at Beaufort on her own account, where she made money and established a good trade. The boy always had, and has to this day, the greatest respect for the Hebrew religion, but was never identified with the church. It was with the semi-Jewish class in London that he first found favor.

"I don't want to be a fool!" exclaimed Brown, impatiently, when advised to join the dance. "Which goes to show," remarked Fog, "that a man can't have everything just as he would like it in this world."

Great Run on a Well-Known Institution.

The famous Patent Medicine Warehouse of Charles N. Crittenton, New York, has recently been subjected to an extraordinary pressure—the pressure of crowds of sufferers from Coughs and Colds in search of "Hale's Honey of Horehound and Tar," of which he is the fortunate proprietor. The popularity of the article is boundless, and will last, for it is built on the solid foundation of innumerable cures. Crittenton's establishment might properly be called a Saving Bank from the number it has been instrumental in saving from Consumption. Trochial affections of every type vanish under its balmy and balsamic influence with astonishing rapidity. Sold by all druggists. Ask for large size, price \$1, they are much the cheapest.
